

How to register Organization/Primary Contact

The Producer / Production Company would have to register their parent organization. Additional Users can be added to the Organization using the **"Add User Details"** button during registration. This allows up to three users to be registered along with the organization. Any additional users will have to be added by RGF RogersGroupofFunds@rci.rogers.com

Please do not add Agents as an Organization Contact. RGF RogersGroupofFunds@rci.rogers.com needs to add agents to the portal and/or specific applications.

Once registered, applicants can then log in and create individual applications for any number of specific projects. A project's single-purpose production company will only be identified within the project-specific application tab.

The screenshot shows the Rogers Group of Funds login page. At the top left is the logo "ROGERS Group of Funds". The page is divided into two main sections. On the left, under the heading "Login", there are two input fields: "Email" and "Password". Below these fields is a red "Log In" button. To the right of the "Log In" button is a link "Forgot Password?". Below the "Log In" button is a yellow box with the text "New to the System?" and a red "Register Here" button. On the right side of the page, there is a heading "Welcome to the Rogers Group of Funds" followed by a paragraph: "The Rogers Group of Funds provide three types of funding for independent Canadian television and film producers with a combination of grants, equity investments and production loans. Please refer to our guidelines to determine which fund best suits your needs."

Click "Register Here" on the login page
